Cloud Collaboration with Cisco Webex Calling

ANM offers cloud-based Cisco Webex Calling with all-in-one invoicing and integrated cloud and PSTN services. Enjoy high-quality audio and high-definition video, as well as features like shared lines, hunt groups and do-not-disturb. Use the app on any device for instant sharing of screens, files and messages. Virtual receptionists are also available to greet inbound callers and personalize voicemail for every user. As a Cisco Gold Partner, ANM can customize and simplify your cloud migration, as well as integration with Webex Meetings and Webex Teams solutions.

Questions to consider:

› How do you currently collaborate?

› Are you looking to improve your current telephony experience?

› Do you want to reduce complexity in your collaboration environment?

› Is increasing productivity and cohesiveness a priority?

› Do you have a defined time frame for cloud calling migration?

> "Cloud calling will surpass premise-based line deployments by 2020. - Gartner
